

## Some simple tips to avoid damage

- Don't clean wooden floors with a wet mop.  
Too much water can cause the floor to swell, warp or turn grey.
- Don't use wax, soap or other household cleaners on wooden floors coated with finish. They can dull the floor's finish.
- Don't let sand, dirt or grit build up. They can act like sandpaper: abrading and dulling your floor finish.
- Vacuum or sweep your floors regularly. Once every week is recommended.
- Remove spills promptly using your Bona Mop and Bona Wood Floor Cleaner.
- Place mats at exterior doors to trap sand and grit. Use rugs in high traffic pathways, at the ends of stairs and near doorways. Avoid rubber backing or non-ventilated rugs.
- Use protective pads or caps on furniture.
- Trim your pet's claws. Proper claw trimming helps avoid scratches and gouges.

## Renovate your old wooden floors

Despite regular cleaning and care, a wooden floor will eventually require renovation. This involves sanding and the application of a new protective coating. Bona offers you Bona System – a whole range of compatible products to keep your wooden floor looking good throughout its lifetime. The cleaning products presented in this folder are included in the range. We also have a complete range of products for the renovation of wooden floors, including sanding machines, abrasives, a wide range of water-borne finishes, oils and stains both for the professional user and the practical homeowner.

## Now you can renovate your floors without dust

Bona has developed a completely new and revolutionary technique for dust-free sanding. Ask your flooring contractor about dust-free sanding with the Bona Dust Care System and you can avoid the troublesome dust that is traditionally associated with sanding.

# Spray Mop

Easy Cleaning for Wooden Floors

**Bona®**

Bona - experts in wooden floor care since 1919

# Keep your wooden floor looking attractive

Regular cleaning is the key to keeping your wooden floor looking attractive for years to come. Cleaning wooden floors used to be a chore. The traditional way is to use a mop and a bucket with a general household cleaner mixed with water. Not any more! With the new Spray Mop from Bona, you just spray the floor and wipe it clean.

Because wood is different from other flooring materials, it requires special cleaning and maintenance products to retain its beauty. Bona has the complete answer: the Bona floor care range, based on Bona's over 90 years' experience of taking care of wooden floors.

Professional flooring contractors, cleaning companies and architects rely on our products because they are made specially for wooden floors. The new Spray Mop from Bona enables you to clean and maintain your wooden floors in a sweep.

Ergonomic and simple to use, the Spray Mop is quick to assemble and refill with the specially developed refillable cleaner cartridge. The rotating head enables you to clean difficult areas that traditional mops are not able to reach.

Bona Wood Floor Cleaner protects and cares for your wooden floor. It removes stains, dirt and grime without leaving any streaks. The spray and wipe method ensures that excessive amounts of water, that could damage the floor, are avoided.

- Specially developed for wooden floors.
- Ergonomic design.
- Refillable cartridge.
- Easy cleaning without residues or marks.
- Environmentally sound, PH neutral cleaner.
- Rotating head for ultimate reach in difficult areas.
- Washable microfibre cleaning pad.

## Everything you need to get started

The Spray Mop from Bona is always ready for use without the need for any kind of previous mixing or preparation. It is sold in a box containing:

- Spray Mop
- Wood Floor Cleaner Cartridge
- Microfibre Cleaning Pad

All items are also sold separately

## Other products from Bona
